BM - Climate Shield: Protection for online gauges

Online gauges inside climate shield

Climate shield with closed doors

BM – Climate Shield is an ideal solution for safeguarding your online gauges from adverse weather conditions while also providing a secure and safe working environment. Our ingenious design features a pair of sturdy plexiglass sliding doors that offer easy access to your gauges, while simultaneously shielding them from wind and rain.

The automatic locking mechanism ensures the doors are firmly locked when in the closed position. A straightforward and easy-to-use handle unlocks the doors when it is time to access the gauges. This mechanism is designed to be operated only by adults, ensuring your gauges remain secure at all times.

The plexiglass material allows excellent visibility and natural light to pass through, and it provides outstanding strength and durability against the elements. Additionally, our climate shield comes in various custom sizes and materials, enabling us to meet your specific needs and requirements.

Protect your investment and guarantee the safety of your team with **BM – Climate Shield**.
